# Compatibility

Alpha direct Balance base station · https://faqdoc.info/en/systemauswahl/alpha-direct-en/alpha-direct-balance-base-station/compatibility/

## Can any thermostats be used with the base station?

All standard thermostats available on the market are compatible with the system.

## Is the system compatible with other control components that have their own control systems?

We cannot comment on thermostat components made by third parties. The system is compatible with all standard components. Furthermore, there is no need to combine other control components with integrated hydraulic balancing with the system, as the system already features ‘automated hydraulic balancing’.
