Update (OTAU)

Alpha Smart cloud · https://faqdoc.info/en/systemauswahl/alpha-smartware-en/alpha-smart-cloud-en/how-does-the-firmware-update-otau-work/

How does the firmware update (OTAU) work?

OTAU stands for Over The Air Update and means that the OEM Alpha smartware devices’ firmware can be updated via the OEM Alpha smart cloud. Therefore, OTAU can be used to roll out new features or correct errors As required, new firmware versions can be rolled out via the cloud.
