Standalone principle

Alpha Smart stand-alone system · https://faqdoc.info/en/systemauswahl/alpha-smartware-en/alpha-smart-stand-alone-system-en/what-does-stand-alone-mean/

What does stand-alone mean?

Stand-alone means that when Alpha smartware devices are paired, no IoT gateway, Alpha smart cloud, or the Alpha smart app is required. Therefore, the fitter can commission and test the system offline and on the spot. Once paired, the system can run on its own, in other words, it’s a typical wireless solution.
