Pairing

Alpha Smart stand-alone system · https://faqdoc.info/en/systemauswahl/alpha-smartware-en/alpha-smart-stand-alone-system-en/whats-meant-by-pairing/

What’s meant by pairing?

During pairing, the Alpha smartware cSP-L devices are linked with each other locally so that they can perform all the functions required of the system. For example, the base station is paired with several room-control devices to operate the hydronic underfloor heating. The instructions show how to carry out pairing.
