Alpha Smartware IoT Gateway Downloads

Alpha Smart system downloads · https://faqdoc.info/en/systemauswahl/alpha-smartware-en/alpha-smart-system-downloads-en/alpha-smartware-iot-gateway-downloads/

The Alpha Smartware IoT Gateway (IOTG 26001-xx) securely networks smart devices with the Alpha Smart Cloud. It is a basic requirement for connecting Alpha Smartware components to the Alpha Smart Cloud. Data transmission is encrypted via the device to protect the data from unauthorized access.

Data security complies with the industry standard with end-to-end AES 128 hardware-based encryption between the sensor and Alpha Smart Cloud.

The Alpha Smartware IoT Gateway enables the Alpha Smart system to be set up and controlled using the Alpha Smart app.
